### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- In line 9 of claim 31, the term "the first and second magnetic sensor unit" has been replaced with -- the first and second magnetic sensor units --.

### ***Examiner's Statement of Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The prior art of record does not, alone or in combination, disclose an angle detection apparatus comprising first and second magnetic components oriented orthogonally to each other, whereby control means control an output signal of a first magnetic sensor unit so as to have a fixed value and driving means drive a second magnetic sensor unit according to the same drive conditions as those of the first magnetic sensor unit, so that an output signal of the second magnetic sensor unit is proportional to the tangent of a relative angle between the angle detection apparatus and a magnetic field source.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Bot LeDinh whose telephone number is 5712722231. The examiner can normally be reached on Maxiflex.
